OPEN SOURCE IS THE SOURCE
OF TECHNOLOGICAL INNOVATION

1,000,000+ projects

KVM, GNOME, Apache Project, OpenShift Origin, OpenStack®, Fedora, OpenJDK, Hyperledger, Kubernetes, node.js, TensorFlow
INFRASTRUCTURE FOR POWER ECOSYSTEM
STANDARDS-BASED, OPEN SOURCE SOLUTIONS

RED HAT ENTERPRISE LINUX
Operating system (OS) foundation for infrastructure and apps

RED HAT VIRTUALIZATION
Flexible virtualization built on Linux

RED HAT OPENSTACK PLATFORM
Datacenter software for building private cloud

RED HAT OPENSHEFT
Container platform for developing, hosting cloud-native applications

RED HAT CEPH STORAGE
Scale-out, software-defined storage spanning the hybrid cloud

RED HAT DELIVERS OPEN SOURCE INNOVATION
OUR PRODUCT PORTFOLIO HAS BROAD INDUSTRY IMPACT

GitHub has 80,000,000 repos. No one company could deliver all those projects as products. We focus on platform technology our customers and partners need. And make improvements to build better solutions.
